KERLY VALLEJO VINUEZA

FRONTEND DEVELOPER

ABOUT ME

I am a curious and self-taught person, currently studying web development, as I am passionate about creating interactive and responsive applications. I have learned to build friendly user interfaces using HTML, CSS, JavaScript and React. I am excited about the opportunity to join a development team where I can apply my knowledge and keep learning in a dynamic environment. In addition, I am adaptable, a fast learner and always looking for new challenges to keep improving professionally.

WORK EXPERIENCE

Nomada

2024 - PRESENT

Booking App

- Hotel search platform that allows users to explore global options, with advanced filters by country and area. It provides detailed pricing information as well as recommendations from other travelers to facilitate decision making.
- Technologies: React, Tailwind, external API, Zod.

Fortune cookie

2024 - PRESENT

Interactive application

- Interactive application that generates random predictions in the classic fortune cookie style. Users receive personalized messages, creating a unique and fun experience.
- Technologies: React, CSS, Javascript

Cultural exchange
